Ultimate Development Plan For Mokena Park
WILLIAM C. ROSE LANDSCAPE ARCHITECT

We are happy to present a map of the new Mokena park we can't call it by name, because it hasn't been named yet. But as soon as the naming contest is finished, and a name chosen from the entries, it will have a name.

The committee states there are not many entries to the naming contest as yet, so if there are those who plan to enter the contest by submitting a name and reason for so choosing that name written in 50 words, the judges will be happy to announce the winning name.

The park as is noted, runs the long way south from LaPorte road. It will be some time before the plan and layout is completed, but it should be real nice then and a park we can all be proud of. What is the name?

ALPINE

Mrs. E. Mrosek
Orland 41-J-1

There was a record turn out at the Maue schools annual picnic at Messenger Woods Sunday afternoon. All enjoyed the potluck smorgasbord picnic dinner. There were many laughter provoking contests with prizes for all. In the two ball games which were played, fathers won a game from sons and the mothers were left feeling a bit sorry that their game was called off before they had a chance to even the score with daughters.

Thus it was that again another fine year in the history of Maue school was brought to a close. May its teachers, Mrs. Lembke and Mrs. Brown and its students have happy vacations. May its graduates, Sandra Felsch, John Janulis, Daniel Turay, Beverly Gale, Sharon Lauffer and Louis Schmidt, have continued happiness and successful futures.

At the school picnic Sunday afternoon, Mrs. Hazel Brown, Maue's upper grade teacher, presented Reed Williams and Bobby Stellwagen each with a certificate and gift in recognition of their perfect attendance record during the past year.

There will be a meeting of the Alpine girls 4H club at the Harwood Stellwagen home Monday evening, June 14. Herbert Schumacher, who recently received his discharge from the U. S. forces, arrived home May 27. He had been stationed in Alaska the past 10 months.

It is thought the accident was caused by another driver who cut in too closely. Mr. Holz's condition is thought to be favorable.

Pfc. Arthur Holz Jr. is home on furlough. He has been stationed at Camp Lee, Va.

From where I sit... by Joe Marsh
Wise Stepmother

Have you heard about young Skeeter Roberts' unusual pet, the tame owl "Blinky"? He's had her about three years.

I say "her" because up to a couple of weeks ago nobody was quite sure. But now "Blinky's" a mother—of two chicks!

Seems "Blinky" had been acting kind of strange—so on a hunch, Skeeter put a couple of hen's eggs in her nest. Darn if "Blinky" didn't set on them for 5 days! Last Friday they hatched, and now "Blinky's" as proud as a mother hen! (So's Skeeter.)

From where I sit, there's a lesson for all of us. Guess you'd call it "tolerance." Birds and animals often seem to do better in that respect than humans. If I like a glass of temperate beer with supper and you'd rather have cider—it should be okay with both of us. Neither of us should give a "hoot" what the other fellow likes, says, or does, as long as he follows the law of the land. Right?

Joe Marsh

BABSON SAYS—

Copyright, 1954, Publishers
Financial Bureau, Inc.

Labor leaders have forced employers to resort to unprecedented research. This research is teaching employees that they can

get on without routine workers. This should be a warning to those now graduating from high school or college.

The development of electronics furnishes the basis of modern automatic machinery. A simple illustration is the "electric eye", which opens doors at the correct time without any help from you

Another illustration is the record-changer and turnover on our phonographs, including the automatic stopping of the machine. The most complicated are the new "missiles" which chase and catch an airplane without any human direction.

This same electronic principle is being applied to operation of a factory by a dozen employees, in contrast to the 400 formerly required. As their chief duty will be to "press push-buttons," this can be done by women as well as by men. Labor does not realize the great changes ahead. Employers will always need human help; but not for many present day jobs. They will want the intelligence and judgment of high school and college graduates.

Russia has been depending on her massed armies to overrun Europe the first day of her attack. As the Free Nations of Europe learn to use atomic weapons wars will also go on a "push button" basis. The great masses of Russians, Chinese and Moslems will be a nuisance to clutter up a battlefield. Premier Nehru recognizes this. It explains his great desire to remain neutral. Electronics and the atom will cause tremendous changes in both warfare and education.

It surely is wonderful to live here in the United States, which is leading in these new developments. I envy our young people who are to graduate this month. They will have so many more opportunities than we oldsters had. I wish the schools and colleges would wake up to these changes that are ahead. Better pension off the professor who can teach only the orthodox old-fashioned courses, instead of forcing young

people to take these courses in order to get an A. B. degree.

I forecast that the above changes mean young graduates will need good character more than ever before. Better training by homes, churches and colleges will be absolutely essential in this new electronic push-button age. Wise are the young people who now take evening courses which will enable them to move forward to better jobs when the dull ones are cast aside. I forecast that even the Linotype machine which sets the type for this column will be abandoned for a new automatic photo process.

The typical salesgirl of today could become obsolete. She could be replaced 70% by "self-service" counters, 20% by push button vending machines, to which I have previously referred, and 10% by highly paid, intelligent salesmen and clerks who secure new customers. Such qualifications must be had by the June graduates who are to get good jobs. The field of advertising and selling is yet in its infancy, with marvelous possibilities for those who properly train themselves.

I forecast that this change means: 1. Manual and routine labor will gradually become obsolete.

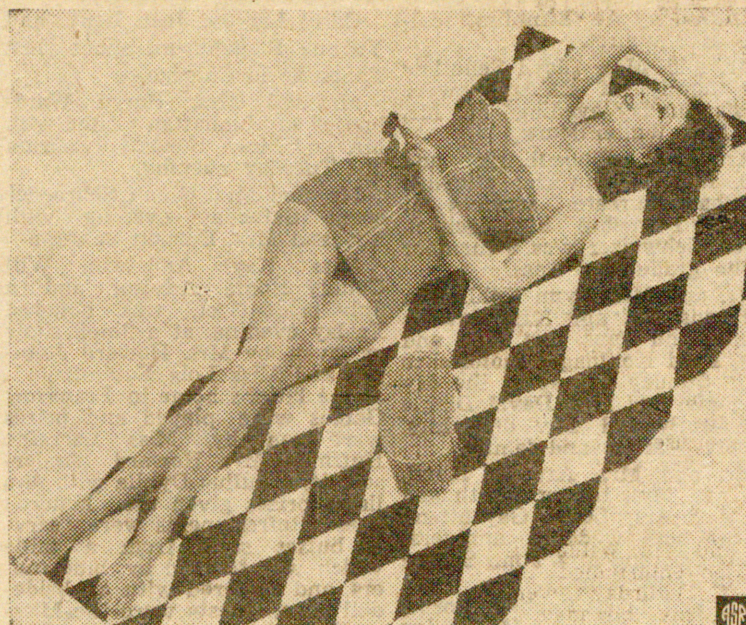

2. To keep employed those unable to do anything else, their hours of work will constantly be decreased with the same take-home pay. This will boost the "Build it Yourself" industries!

3. The pay increases will go to the serious and intelligent employees. There will be no limit to the salaries of those who have the needed character, brains, loyalty and initiative.

4. The great U. S. problem will not be to raise crops, or to build homes, or to manufacture merchandise, but to get people to buy. Hence, instead of subsidizing farmers, we will subsidize merchants and salesmen.

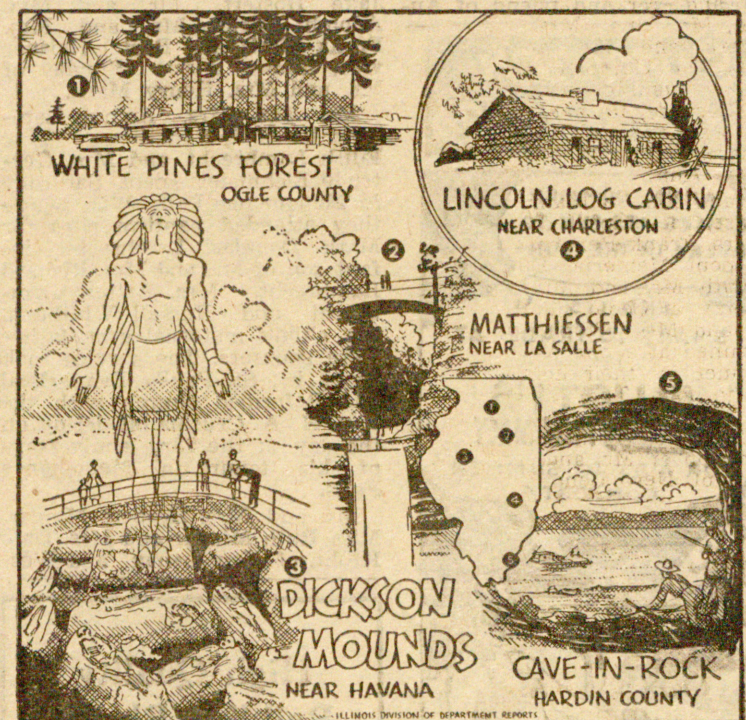

5. I am advising young men to become expert machinists, instead of lawyers; trained outside salesmen, instead of inside pencil pushers; and after graduation this June to attend night school in preparation for the New Age.

Beach Towel Glamour Hints

What's the news in beachwear? Beach towels have gone high-style—so much so that smart women are choosing them as backgrounds for bathing suit glamour. This striking harlequin pattern, "Monte Carlo" is sure to attract attention. Colorful stripes, solids and novelty sea-horse and mermaid designs are perfect for beach allure.

Another fashion tip, suggests The Cannon Homemaking Institute, is to make clever beach accessories from your beach towels—tunics, stoles, shawls, sarongs, wrap-around skirts. Their glamour possibilities are endless!

SEE ILLINOIS NOW—Visit your scenic and historic Illinois State Parks and Memorials. No. 1, White Pines Forest, in Ogle county, is the largest southernmost White Pine forest in the nation. No. 2, various plant and animal life native to Illinois is preserved at Matthiessen, near LaSalle. No. 3, Dickson Mounds, between Lewistown and Havana, features an excavated Indian burial ground. No. 4, Lincoln Log Cabin, near Charleston, is the last home of Abraham Lincoln's father. No. 5, Cave-In-Rock, in Hardin county on the Ohio river, was once the hideout of river pirates.

PLANO CENTENNIAL

Plano, Ill., will celebrate its centennial on June 25, 26 and 27 with a gala three-day celebration which will include three parades: a gay old timers picnic, a 20 episode pageant and a city full of exhibits and entertainment.

Plano's claim to fame lies in the fact that the first harvest-

ing machine was built and manufactured in this city.

Friday, June 25 will be dedicated to the city's youth.

Saturday, June 26, an antique car parade will be held.

On Sunday, June 27 the big parade will be held in the afternoon following church services.

Christian Science Churches

That spiritual understanding of God protects man from disease and danger, and is not subject to material laws of chance and change, will be brought out at Christian Science services Sunday.

Keynote of the Lesson-Sermon entitled "God the Preserver of Man" is the Golden Text from Deuteronomy: "The eternal God is thy refuge, and underneath are the everlasting arms." 33:27. Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following:

"God has endowed man with inalienable rights, among which are self-government, reason and conscience. Man is properly self governed only when he is guided right and governed by his Maker, divine Truth and Love" (106:7).

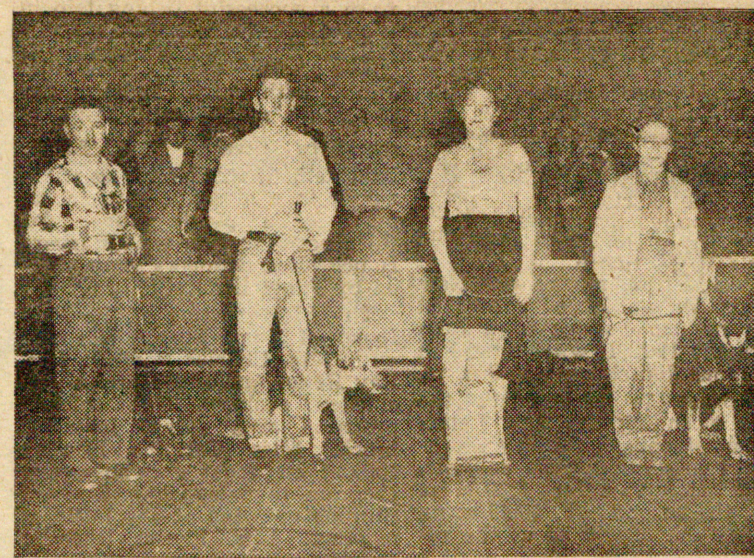

From the King James version of the Bible the following verses will be among those read: "Because thou hast made the Lord, which is my refuge, even the most High, thy habitation; There shall no evil befall thee, neither shall any plague come nigh thy dwelling" (Psalms 91:9, 10).

Van Drunen Ford Sales Again Wins Four Letter Award

The Van Drunen's together with their employees and their respective wives and husbands met at Surma's restaurant recently where they enjoyed a delicious steak dinner after which the presentation of the Four Letter Award plaque was made by Mr. H. G. Kanwischer, field manager for the Ford Motor company.

The four letter award is the highest honor which can be attained by the Ford dealer. In order to obtain this award the dealership must be sound financially, its management must be efficient, its spirit must always be competitive, and its facilities must be completely modern and adequate.

The performance and operation of this dealership is and has been in keeping with the meaning of the letters FMSE—Ford Must Stand First. This is the fifth year this dealership has received

such an award. Only 15 dealers out of 279 in the Chicago district have received similar awards.

Last October the service manager, Mr. M. L. (Marty) Hupe, and the parts manager, Mr. R. C. (Smitty) Smith, were the winners in a parts and service contest for which they were given an expense free vacation to Havana, Cuba. In December, Salesman Evert Cooper won a sizable cash award plus a similar trip for himself and Mrs. Cooper, to Bermuda.

Rose M. Platenka, bookkeeper of this firm has been awarded the Senior Accountant pin. She is one of nineteen winners out of 279 dealerships competing. In March of 1954 Salesman Evert Cooper was awarded the honor of leading all other salesmen in the 300 club. The 300 Club is composed of salesmen employed by dealers who sell 350 cars or less per year.

In the face of increased competition this dealership is enjoying a satisfactory business operation and reports its sales to be far ahead of last year.

New Publication On Illinois Highways Issued

"The Illinois Highway Story, 1953" is the title of a new 32-page brochure issued by the Division of Highways. It was prepared by direction of Governor William G. Stratton to present in layman's language the story of highway building during the first calendar year of his administration.

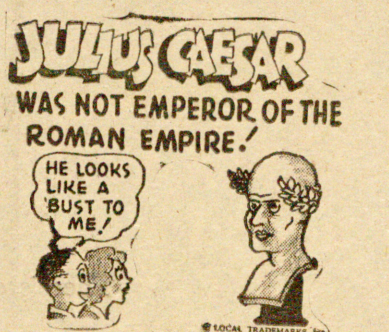

The new publication is intended for popular consumption, and differs from previous annual reports of the division. It gives the facts and figures of highway construction in graphic form that anyone can understand.

Pictures and text illustrate accomplishments in each of the state's ten highway districts.
